

Maplebrook Summer Program

July 1 - August 11, 2012

Are you concerned about the lazy days of summer compromising all the progress your child is making this school year? Do you want your child to keep that academic "edge" into the next school year? Are you looking for something different for your child this summer? Do you wish there was one program that had it all? Now there is...the Maplebrook Summer

Program! Maplebrook's Summer Program offers an exciting summer experience for students with learning challenges. It is learning wrapped in fun that creates the ultimate summer experience!

Research has shown that the few months of loss in reading skills over the summer months compounds over years. Experience tells us that after students attend Maplebrook's Summer Program and benefit from the academic support, they return to school in the fall ready to "hit the ground running". If you are seeking a program to prevent the regression of skills, various classes, tutorials and specialized programs that not only interest your student, but help them maintain those

crucial skills learned during the school year, Maplebrook's Summer Program is for you. Highly trained faculty use such programs as Orton-Gillingham, Wilson Reading, Renaissance Math and Personal Finance, while students preparing for a collegiate experience are guided in test taking strategies, time management, note taking and critical thinking. Through a multi-sensory approach, students improve their study and organizational skills and gain the confidence to succeed. Speech & language services are also available upon request.

The benefits of having a positive work experience in the summer are immeasurable. Students who are of working age and exploring career options would greatly benefit from the CAPS portion of Maplebrook's Summer Program. It is the perfect solution for the student who is not sure what career path to take. By providing a multitude of work placements, students can engage in career exploration through the experiential learning model. Areas include food service/catering, child care, animal care, retailing, business and more.

Students gain invaluable skills in one of several work placements in the greater community.

Special Trips and Travel:

Who said learning can't be fun? This summer, we are offering an opportunity for the students to travel. Trips include excursions such as trips to New York City, studying the early American history of Boston and Washington, DC as well as the events of the Civil War by experiencing a reenactment of the Battle of Gettysburg. Students will learn such things as how the Amish live, engage in life without electricity, understand the religious nature of this way of life as well as how to live a self-sufficient lifestyle. This is a small sample of the experiential nature of Maplebrook's Summer Program. Study it, and then experience it!

Many students love music, computers, cooking and the leisure side of summer.

Maplebrook's Summer Program is an ideal way for students to tap into their artistic side, use the latest technological advances to create their own music video, capture their summer memories through digital photography or develop a summer blog. Finally, students can engage in those timeless summer activities such as fishing, boating, ropes courses, hiking and camping. There is something to pique the interest of everyone. All students have access to Maplebrook's Internet Café and interactive video game room during free time.

To round out Maplebrook's Summer Program, each student will enjoy special weekend trips to places such as Great Adventure and Cooperstown, as well as attend concerts, professional sporting events and more. The Maplebrook Summer Program is not just a dream....make it a reality!

For More Information

Maplebrook School is located approximately 90 miles northeast of New York City. There are several convenient airports within 1 ½ hours drive including JFK, LaGuardia, Stewart International Airport in Newburgh, NY and Bradley International Airport in Hartford, CT. In addition, the Metro-North train station is 3 miles from campus. For a full package of information and application, contact the Admissions Office at:

5142 Route 22
Amenia, NY 12501
